SECTION 3 - DESCRIPTION OF SERVICE (continued)

(N)

3.52 VOLUME PLUS LD Switched Long Distance

VOLUME PLUS LD Switched Long Distance is a direct dialed outbound and inbound long distance service designed for business Customers located in AT&T ILEC territory in SC whose monthly billed intrastate outbound and inbound usage is less than 60% of the Customer's total outbound and inbound long distance usage. This product will be offered to new Customers or current Customers who are adding stand-alone long distance locations to their existing service or replacing their existing long distance product with this product and meet the eligibility requirement described in this section of the tariff. VOLUME PLUS LD Switched Long Distance is available to Customers on facility-based lines with local service provided by Deltacom or who have selected AT&T as their local service provider.

In the event Customer's intrastate outbound and inbound long distance usage rises above 60% of total outbound and inbound long distance usage during a monthly billing cycle, the Company reserves the right to offer the Customer an alternate long distance product or terminate service. If the Customer chooses to transfer service to an alternate long distance product, all terms, conditions and rates for the alternate product will apply.

Customers will be required to maintain a volume level commitment of \$7,500 during each billing period to qualify for VOLUME PLUS LD Switched Long Distance. The volume level commitment is based on total usage charges during a monthly billing period. Eligible usage includes Customer's outbound, inbound, international, calling card and directory assistance charges originating or terminating to telephone numbers utilizing AT&T or the Company as the local service provider and established on the VOLUME PLUS LD Switched Long Distance option. No other charges, including taxes, will be eligible in attaining the volume level commitment. If the total monthly usage does not meet the minimum volume commitment level, the Customer will be billed an amount that will meet the minimum volume commitment level. The amount will appear as a separate line item on the Customer's bill and will be identified as "Volume Level Shortfall Amount." Taxes apply to the Volume Level Shortfall Amount. The Customer will not be assessed the minimum Volume Level Commitment on their first partial invoice. Customers with multiple locations and/or multiple accounts in a group account will be evaluated on an individual account basis.

SECTION 3 – DESCRIPTION OF SERVICE (continued)

(N)

3.52 VOLUME PLUS LD Switched Long Distance (continued)

Subscription to VOLUME PLUS LD Switched Long Distance does not require a term plan. However, Customers who sign a term agreement may incur a Discontinuance Charge, as described in Section 2, for early termination of an Initial Term or Renewal Term, except that, in place of the Annual Usage Commitment Level in the Discontinuance Charge calculation, Customers will be billed an amount equal to the monthly volume level commitment amount multiplied by the number of months remaining in the term, on a per-location basis. The Discontinuance Charge applies at the time of cancellation regardless of amounts paid in excess of previous months' volume level commitment. In addition, the Company may seek repayment of all monthly and non-recurring fees waived through the date of cancellation. In the event the Customer is unable to continue to meet the percentage usage requirements for this product and service is terminated by the Company, no discontinuance charges will be assessed. If the Customer chooses to transfer service to an alternate product and service is subsequently terminated prior to the end of the term agreement, Discontinuance Charges will apply under the new product.

Customers must maintain an average call length of two (2) minutes across all of their inbound and outbound long distance usage in a single billing period. Should the Customer fail to meet the two (2) minute minimum call length average, a short duration call fee of \$0.01 per minute will be assessed. The short duration call fee will be assessed as a separate line item on the bill as the total minutes for that billing period multiplied by \$0.01.

Calls are billed in six (6) second increments following an initial billing period of six (6) seconds. Interstate and international service is offered in conjunction with intrastate service. The applicable rates per minute, as set forth in the Rates Section of this tariff, do not apply to International, Directory Assistance, and Operator Services minutes. These calls carry a separate rate as described in the Rates Section of this tariff.
